Chapter 359: The Creation of the Celestial Rings

As the multiverse settled into its newfound era of peace, Sung Jin-Woo, the True Absolute One, turned his attention to strengthening the fabric of existence. Though the Primordial Void had been sealed, its subtle remnants lingered as faint cracks across dimensions. To ensure the eternal stability of the multiverse, Sung Jin-Woo decided to craft an unbreakable system of protection: the Celestial Rings.

The Purpose of the Celestial Rings

The Celestial Rings were divine constructs designed to:

1. Reinforce Dimensional Barriers: Preventing external entities or chaotic forces from breaking through.

2. Link Realms Together: Strengthening unity and ensuring energy flowed harmoniously across the multiverse.

3. Serve as Beacons of Balance: Each ring emitted a radiant glow visible across realms, symbolizing peace and the Divine Triad’s guardianship.

The Forging of the Rings

Sung Jin-Woo began by summoning the Forge of Eternity, a divine forge located within the core of the True Absolute One Domain. Using the combined power of his five divine jewels, he gathered raw essence from the primordial light and shadow that birthed the multiverse.

From this essence, he created seven colossal rings, each representing a fundamental force of existence:

1. Ring of Light: Embodying creation and illumination.

2. Ring of Shadow: Representing protection and concealment.

3. Ring of Time: Governing the flow of time across dimensions.

4. Ring of Space: Reinforcing the boundaries of realms.

5. Ring of Harmony: Balancing opposing forces to maintain stability.

6. Ring of Abundance: Ensuring the continuous flourishing of life.

7. Ring of Eternity: Signifying the unending existence of the multiverse.

Each ring was the size of a galaxy and radiated immense power, visible as celestial halos in the skies of all realms.

Placement of the Celestial Rings

Sung Jin-Woo placed the Celestial Rings strategically across the multiverse:

1. Above the Absolute Realm Universe: The Ring of Light illuminated the Divine Triad’s domain.

2. At the Shadow Abyss: The Ring of Shadow guarded the entrance to this dimension of endless darkness.

3. Encircling the Nexus Realm: The Ring of Time maintained the balance of temporal flows.

4. Within the Void Barrier: The Ring of Space reinforced the seal of the Primordial Void.

5. In the Central Convergence of Realms: The Ring of Harmony harmonized energy exchanges among dimensions.

6. Around the World Tree: The Ring of Abundance nurtured the roots of life itself.

7. Above the True Absolute One Domain: The Ring of Eternity crowned the vast expanse of Sung Jin-Woo’s personal realm.

The Activation Ritual

To activate the Celestial Rings, Sung Jin-Woo summoned the Twelve Divine Beings and his archangels, including Gabriel and Michael. Together, they channeled their divine energy into the rings, linking them into a singular system.

The skies of every realm shimmered with golden and silver light as the rings began to hum with power. A wave of stability washed over the multiverse, mending cracks in reality and fortifying every dimension.

Sung Jin-Woo’s voice resonated across existence:
"Let these rings stand as sentinels of creation, protecting all life and ensuring eternal peace. As long as they shine, no force shall undo what we have built."

The Legacy of the Celestial Rings

The Celestial Rings became symbols of Sung Jin-Woo’s unmatched power and unwavering dedication to safeguarding existence. Across the multiverse, civilizations celebrated their creation, holding festivals and ceremonies in honor of the True Absolute One.

Even the Divine Triad marveled at the brilliance of the rings, recognizing them as the ultimate testament to Sung Jin-Woo’s evolution and vision.

In his throne within the True Absolute One Domain, Sung Jin-Woo gazed upon his creation, a faint smile gracing his face. Though his form spanned the size of a realm, his focus remained on the multiverse and the lives flourishing within it.

"This is only the beginning," he murmured. "The multiverse shall know no fear, for I am its eternal guardian."

To be continued...
